**CULPEPPER & TERPENING, INC. MENTORS ST. LUCIE WEST
K thru 8th GRADE ALTERNATIVE FUEL GO-KART TEAM
IN THE FP&L AND TCERDA
EXTREME ENERGY EDUCATION EVENT (XE-3)**

Fort Pierce, FL - (May 25, 2010) - Culpepper & Terpening, Inc. is please to announce that the Treasure Coast Research Park's "Extreme Energy Education Event" was a huge success. Mr. Steven Doyle, P.E. has been a mentor for the St. Lucie West K thru 8th Grade Classes in the development of an alternative fuel racing go-kart. The students and mentor spent countless hours both in and out of the class room in developing these vehicles. The Extreme Energy Education Event was hosted on Saturday May 22, 2010 at the Treasure Coast Research Park, in Fort Pierce. This is a first time event of this kind within the Treasure Coast where students; researched, designed, fabricated and assembly a solar powered electric go-kart.

SLW K-8th, also know as the "*Home of the Sharks*", competed with seven other schools in the region with SLW winning their fair share of ribbons and a trophy for the "*People's Choice Award*". Each school tailored their vehicles to represent their respective mascot and SLW K-8th was not exception when hitting the start line with a go-kart resembling a shark. Fitted with sharp teeth, a fin, and a tail the electric powered go-kart cruised down the track at speeds approaching 30-mph. For more information about the event please visit tcpalm.com.
