FOR IMMEDIATE RELEASE

**CULPEPPER & TERPENING RECEIVES
NATIONAL 2007 *HOT FIRM* AWARD
FROM ZWEIG WHITE**

FORT PIERCE, Florida/November 1, 2007 – Butch and Sherry Terpening, President and Chief Operating Officer of Culpepper & Terpening, respectively, a multidisciplinary consulting firm specializing in civil engineering and surveying services on Florida’s Treasure Coast, are proud to announce that their company has received this year’s prestigious **National Hot Firm Award** from Zweig White. Zweig White is renowned for their world wide management consulting and research services for architectural and engineering firms. “Only 200 architecture, engineering or environmental firms throughout the entire United States and Canada annually receive this designation,” said Butch Terpening, also noting that thousands of applicant companies submit for the award. Firms that attain this designation as industry leaders have outperformed the economy and competitors.

The Zweig White 2007 Hot Firm List is based solely on gross revenue for both fiscal year 2003 and fiscal year 2006. Culpepper & Terpening had growth of 78 percent between 2003 and 2006. “We attribute our company’s success to our ability to develop pioneering solutions to some of Florida’s most unique engineering challenges,” said Butch Terpening. “As the region has grown, so has our company,” he added.

According to Mark Zweig, founder and director of Zweig White, the nation's leading source of management consulting for the industry, "Firms that commit to revenue growth while investing in marketing, information technology, and other firm infrastructure are usually the most successful in our industry. The hottest firms in the business – those with consistent growth and success at outperforming the economy and their peers – are the ones that attract top staff and the best clients."

Culpepper & Terpening, located at 2980 South 25th Street, Fort Pierce, Florida, specializes in civil engineering and surveying services on Florida's Treasure Coast for both public and private clients. For more information call (772) 464-3537, or visit their website at www.ct-eng.com.
